B.Tech, Computer Science and Engineering – Artificial Intelligence and Machine Learning

Address : F 69 , Ashok Vihar , phase 1 , Delhi – 11052

Education

SRM IST-Kattankulathur

2027

B.Tech · Computer Science and Engineering – Artificial Intelligence and Machine Learning

CGPA – 9.34/10

GD GOENKA PUBLIC SCHOOL

2023

Class XII – CBSE · PCM · New Delhi

Percentage – 89.2%

GD GOENKA PUBLIC SCHOOL

2021

Class X – CBSE · PCM · New Delhi

Percentage – 94.6%

Experience

Coding Ninjas 10X SRM

Sept 2024 – Nov 2024

Web Developer · Member · Full Time

SRM Institute of Science And Technology

SQAC

Jun 2025 – Jun 2026

Web dev team member · Member · Full Time

Srm Institute of science and technology

Projects

Los Santos Estates – Full-Stack Real Estate Platform | <https://mern-stack-estate-b5hs.onrender.com>

Jun 2026 – Jun 2026

· React, Node.js, Express, MongoDB Atlas, Firebase Auth, Cloudinary, Vite

Full Stack Web Development

Developed a full-stack real estate platform using React, Node.js, Express, and MongoDB Atlas, featuring Firebase Authentication and Cloudinary for asset storage. Deployed a unified architecture on Render, optimizing production asset delivery by implementing robust path resolution methods (`process.cwd()`) and refactoring client-side wildcard routers to align with Express v5 specifications to eliminate deployment routing mismatches.

Adaptive Multi-Criteria Search (AMCS) for Autonomous Delivery Bots |

Jan 2026 – Apr 2026

<https://patric420-minor-app-ladj3e.streamlit.app>

University Minor Project · Python, NetworkX, NumPy, Pandas, Matplotlib, Streamlit Artificial Intelligence / Machine Learning

Developed AMCS (Adaptive Multi-Criteria Search), a multi-objective path planning algorithm for autonomous delivery robots.

Optimized routes using multiple constraints including distance, energy consumption, traffic, curvature, and turn penalties.

Evaluated the algorithm across 7 delivery scenarios and compared its performance with A*, Dijkstra, Greedy BFS, Genetic Algorithm, Simulated Annealing, and Hybrid ACO-A*.

Built an interactive Streamlit dashboard to visualize routes, performance metrics, and algorithm comparisons.

SQAC Official Club Website | <https://www.sqac.space>

Jun 2025 – Aug 2025

SQAC Club SRM · NodeJS, express, TailwindCSS, ReactJS

Web Development

Designed an integrated backend API with the frontend so that dynamic pipelines can be created for the club's website. The state management and rendering of the components was optimized to synchronize the records from the database so that there are always updates on the payload.

Edu-Sity | <https://edu-sity-eight.vercel.app>

Independent Website Development · ReactJS, CSS

Web-Development

Built a visually engaging frontend clone of an e-learning platform / institute using React-js.

Developed reusable components for course listings, instructor cards, testimonials, and landing sections.

Implemented responsive layouts and animations for a polished user experience across devices.

Practiced clean UI design principles with focus on visual hierarchy and modern styling techniques.

Designed and developed the landing page and core frontend elements for Mineverse, the high-profile debut event hosted by the SQAC club. Prioritized responsive UI layouts and intuitive visual hierarchy to maximize user engagement, delivering a seamless, cross-device registration and information platform for all event attendees.

Certifications

Certificate in python programming

Feb 2025

Indian Institute of Skill Development Training

Oracle Cloud Infrastructure 2024 Foundations Associate

Jan 2025

Oracle

Artificial Intelligence and Deep Learning Techniques

Feb 2025

Udemy

Digital Image Processing

Mar 2025

Great Learning

Volunteering

Hack And Hit Hackathon

Feb 2026 - Feb 2026

Volunteer · Club Event

Mineverse Event

Sept 2025 - Sept 2026

Volunteer · Club Event

Part of the organising committee

Chotti Shuruaat

Jan 2025 - Jan 2025

Volunteer · Community Connect

Skills

Programming Languages: HTML, Python, C**Domain Knowledge:** Machine learning**Design and Simulation Tools:** Tailwind css, CSS**Languages and Frameworks:** React-JS, NodeJS, JavaScript, Express JS**Tools and Technologies:** MySQL, Mongo DB

Languages

English [Native Proficiency], Hindi [Native Proficiency]
